SKILLS

JavaScript ES6 • Node.js • Express.js • Ruby on Rails
jQuery • React.js • AJAX • HTML5 • CSS3 • SQL
PostgreSQL • MongoDB • Git Version Control
MVC Architecture • Adobe Creative Suite • Final Cut Pro

EXPERIENCE

General Assembly
May 2016 – August 2016

Web Development Immersive

Used a foundation of JavaScript to build and deploy several full-stack web applications. Learned client and server-side technologies, relational database management, RESTful API's, and MVC architecture.

Selected Projects:

Stock Inflation
• Comapres and graphs stock prices against their historical inflation-adjusted values.
• Ruby on Rails
• Chart.js
• AJAX/jQuery
• PostgreSQL

US Drone Strikes
• Search a database of documented drone strikes against targets in Somalia, Yemen, and Pakistan.
• Ruby on Rails
• AJAX/jQuery
• PostgreSQL

Explore the Rijksmuseum
• Search and save your favorite artworks from the Rijksmuseum's permanent collection.
• Node.js
• Express.js
• AJAX/jQuery
• MongoDB

STATE Bags
March 2014 – May 2015

Marketing Manager

Used Facebook ad manager to launch online advertising campaigns promoting STATE's new line of backpacks. Managed brand awareness on Pinterest, Tumblr, and Twitter. Assisted photoshoots and worked with STATE's digital design agency to plan seasonal photoshoots and promotional materials. Used Adobe Creative Suite to design said promotional materials as well as seasonal line sheets. Did cold calling and cold email outreach to boutiques around the world.

Food Guru
June 2013 – August 2013

Videographer

Assisted in filming of marketing videos for Bay Area gourmet food service companies and restaurants. Operated Canon DSLR cameras. Served as Director of Photography for the American Cheese Society's annual marketing video. Operated Canon DSLR camera and worked closely with the director to produce high-quality video.

FORA.tv
October 2012 – June 2013

Sales and Post-Production Assistant

Served as primary administor of FORA.tv's Salesforce platform. Used Salesforce data to create company's sales pipeline. Designed and distributed promotional fliers, wrote company blog posts, and used Adobe Final Cut Pro to edit raw interview footage.

PROFILE

I'm a software developer living in New York City

I enjoy building full-stack applications in JavaScript and Ruby on Rails. My projects have been diverse and comprehensive, and they cater to a broad range of users and clients, from finance buffs to art historians. My passions are finding creative solutions to complex problems and writing robust, beautiful code.

EDUCATION

University	Stanford University
Degree	BA, Film and Media Studies, 2012
Training	Film Theory, Writing, Criticism, and Practice
